Non NHS fees

Most of the services offered by the surgery are free under the NHS. Some services are not covered under the NHS and for these your GP, like other professionals, can charge a fee.

The fee will reflect both the doctor's time to carry out the service and the doctor's professional opinion. It may also include the cost of nursing or secretarial support, stationary and consumables.

Many reports/medicals will state their fees and this will be paid directly to the party requesting this service. In the first instance, please bring the work to reception and we will have a look. If the fee is to be paid by the patient on collection, we only accept cash.

Our standard charge for letters is £30, and our standard charge for reports without examination is £50.

The list of non NHS fees below are correct as of the 27th June 2023.
